

- |                                  |                                   |
|----------------------------------|-----------------------------------|
| A.i.f = Anti-interference filter | Th.r = Temp. choice               |
| DL1 = Door lock/switch           | b3 = Timer contact                |
| H1 = Heater with protectors      | ● = 2.8mm connection              |
| Iv = Inlet valve                 | ● = 6.3mm " on component          |
| m1 = Timer motor                 | ○ = 6.3mm " timer                 |
| m2 = Drum motor                  | ○ = PCB connection on timer       |
| m3 = Drain pump                  | — = Internal connection on timer- |
| Pl = Pilot lamp                  | --- = Connection with wire        |
| P1 = 1-st level pressure switch  |                                   |
| P2 = 2-nd level pressure switch  |                                   |
| Pm2 = Protector in drum motor    |                                   |
| Ta = Tachometer, inside motor    |                                   |
