

- A.i.f = Anti-interference filter
- DL1 = Door lock/switch
- H1 = Heater
- m2 = Drum motor
- m3 = Drain pump
- NTC = Washing NTC
- 1-L = 1-st level pressure switch
- AB = Heater safety level and-antifoam control
- AF = Overflow pressure switch

- Pm2 = Protector in drum motor
- P.w.v = Prewash valve
- W.v = Wash valve
- Ta = Tachometer, inside motor
- = 6.3mm connection on component
- = 6.3mm connection on electronic
- = PCB connection on electronic or component
- = Connection with wire
