

- EV1= Ambient water electric valve
- EV2= Carbonated water electric valve
- EV3= Cold water electric valve
- EV4= Water main electric valve
- EV5= ice tank water electric valve
- EV6= Hot gas electric valve
- EV7= Discharge electric valve
- M1= Compressor fan
- M2= Auger motor
- M3= Ice tank motor
- P1= Tank discharging pump
- P2= Carbonating pump
- P3= Compressor
- IG1= Main switch
- T1= Ice thermostat
- PR1= CO2 Pressure switch
- SW1= Microswitch discharge position
- SW2= Microswitch work position
- NTC1=Compressor temperature probe
- S1= MIN water tank level probe
- S2= MAX water tank level and flooding probe
- S3= MIN carbonated level probe
- S4= MAX carbonated level probe
- L1= Vertical led bar
- L2= Horizontal led bar
- F1= Flowmeter

Flat cable connection to keyboard
