**HOSE CLAMPS REPLACEMENT**

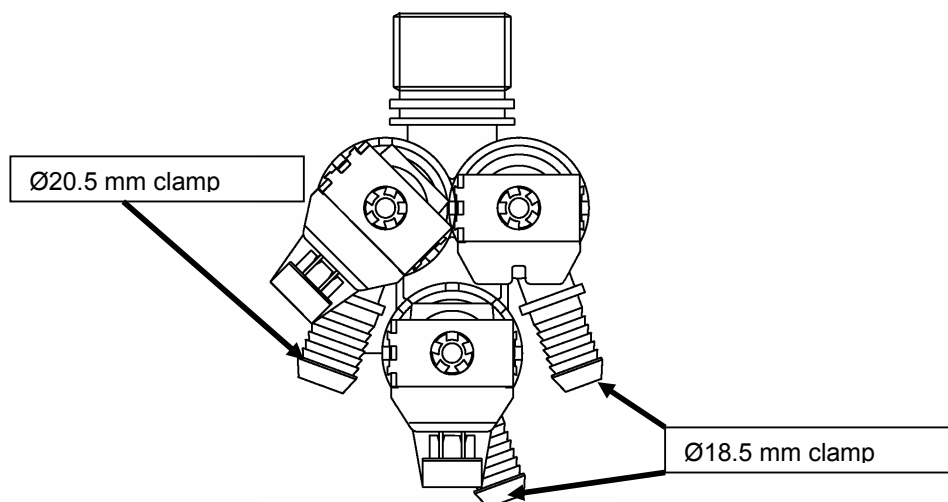

As from serial no. 529..., new hose clamps are fitted to the solenoid and to the conveyor (detergent drawer) on the PRIVILEG appliances.

When carrying out repair, it is necessary to cut the clamps by means of a cutting nipper and replace them with the kit part no. 5028 61 08-00/1, which includes the following six clamps (these ones can be opened and closed):

Part no.124 23 56-00/2 Ø 20,5mm (2 pcs.)

Part no.124 23 56-10/1 Ø 18,5mm (4 pcs.)

The quantity of clamps supplied with the kit are sufficient for one appliance with a three-way solenoid.

The above instruction applies also to the conveyor.
