

Gasburners for european market, excluding UK

When choosing another supply pressure with the new service burner only the jet and the name plate are to be exchanged!
To find the right jet please have a look of the nominal input and the pressure of the name plate!

| Model (up to 103l, one door) | Service burner | Pressure | Type | Nominal input | Spare part number jet |
|--|----------------------|----------|------|---------------|--------------------------|
| RM 2XX, RM 4XX, RA 4XX, RM 4XXX, RA 4XXX, RM 5XXX, RM 6XXX, RM 7XX0 | 292 3430-60/3 | 30 mbar | KZ45 | 202 W | 292 2033-04/4 |
| | | 30 mbar | KZ43 | 252 W | 292 2033-06/9 |
| RM 72X1, RM 73X1, RM 73X5, RM 74X1, RM 74X5 | 241 2802-80/9 | 50 mbar | KZ46 | 202 W | 292 2033-05/1 |
| | | 50 mbar | KZ12 | 252 W | 292 2033-07/7 |
| RM 7601, RM 7605, RM 7651, RM 7655 | 241 2802-80/9 | 30 mbar | KZ16 | 310W | 292 2033-10/1 |
| | | 50 mbar | KZ43 | 310W | 292 2033-06/9 |

For piezo ignition device, the spare part number for the spark plug is 292 3626-00/2.

For reigniter ignition device, without RM 7XXX1 and RM 7XX5, the spare part number for the spark plug including the ignition wire is 295 1105-71/3 (600 mm long) or 295 1105-81/2 (270mm long).
