

NEW HINGES FOR DOOR BALANCING IMPROVEMENT**DESCRIPTION:**

Customers could claim about the uncertain door balancing. Cases could be that the door goes closing by themselves or fall down when opened. That could depends on:

- thickness/weight of the inner door bitumen
- weight of the inner door and its components
- weight of the wooden panel
- hinge's spring range of balancing

SOLUTION:

New door hinge kits are available to improve the uncertain door balancing, when claimed by the Customers. The new kits contain double fulcrum compression hinges with the following balancing rate:

HINGE KITs CODE	To be used if...
4055155164	...door doesn't stay open
4055156121	...door falls down

NOTE: The kits above are specific to balance doors where the wooden panel is up to 10Kg.

MODELS CONCERNED:

All PNC/Models of RealLife/ProClean dishwashers, **excluding the Full Integrated models fitted with sliding fixation system.**

SPARE PARTS:

Order the spare part as specified above to solve Customers' claims about door balancing.

Just for your information, a third hinges kit (4055148409) is also available as spare. This has a medium value of balancing rate.

Notes for interchangeability:

The new hinges kits are perfectly interchangeable with the old ones.
