

NEW CHILD LOCK FUNCTION IN CRISS X USER INTERFACE

DESCRIPTION:

In currently active Criss X user interface boards, it is very easy to accidentally activate the child lock function. Because of that, there will be a change of software. As a result, child lock function will be activated and deactivated differently. This change is done on all boards with firmware **387901702-D** and higher. Refer to picture below on how to find the firmware version. This information is not relevant for all appliances which already run firmware 387901702-D or higher

Placement of software label

SOLUTION

IMPORTANT: After exchange of the user interface, instruct customer on new child lock activation/deactivation procedures

To activate the child safety device

- The appliance is deactivated.
- Touch  for 4 seconds until the symbol  flashes.
- Touch  when symbol  flashes, the symbol  comes on for 4 seconds.

To deactivate the child safety device

- The appliance is deactivated.
- Touch  until the symbol  flashes.
- Touch  in the time when symbol  flashes, the symbol  comes on for 4 seconds

Overriding the child safety device for one cooking session

- Activate the cooking zone. The symbol  comes on. Touch  until symbol  comes on.
- Set the heat setting from position  in less than 4 seconds. You can operate the hob.
- The child safety operates after you deactivate the appliance.
