

**New grinder**

**IMPLEMENTATION DATE:** 2013-09 (IT0335/2013)

**MODELS:** INT/A/RU/SKA/EST/TR/AU/NZ/DE/BR/CH/GB/AT/DE/ZA/SKA/CN - 220/240

**DESCRIPTION:** Since January of 2013, a new grinder is fitted in the models described.

As You can observe in the pictures attached, new grinder has, among other things, a red gasket in the upper position (noticeable at first sight when the grinder is fitted in the appliance), absent from the previous one, besides three plastic coupling teeth (instead of two of the previous version) used to assembly the external mill to the grinder.

There is **no interchangeability** between the two versions of grinder.

In case of replacing the grinder, please, order p/n **4055260535** if the unit you find in the appliance (the unit to be replaced) is the newer one (with the red gasket) or order p/n **4071393716** if the grinder to be assisted has not the characteristics described (for ex. you don't find the red gasket).
