

**VCU display shows F908 error**
**DESCRIPTION:**

In Profi Steam steam ovens from Apollo and Arianne platform produced before 2<sup>nd</sup> week of 2016 (Serial Number 602xxxxx) there is a problem with error F908 appearing on the VCU display. This error cannot be removed by disconnecting from the main power supply.

**SOLUTION:**

To remove the problem there is a need to reprogram VCU interface. The previous software version is FV05CA031, the updated version is FV05CA032.

If reprogramming is not possible, there is a need to exchange the VCU with a part programmed with the new software.

**NOTICE:**

Reprogramming VCU (without part exchange) is a suggested action in case of any customer visit regarding these ovens. Even, if error F908 is not indicated.
