

Side by side installation HCR cabinets – Handle change

DESCRIPTION:

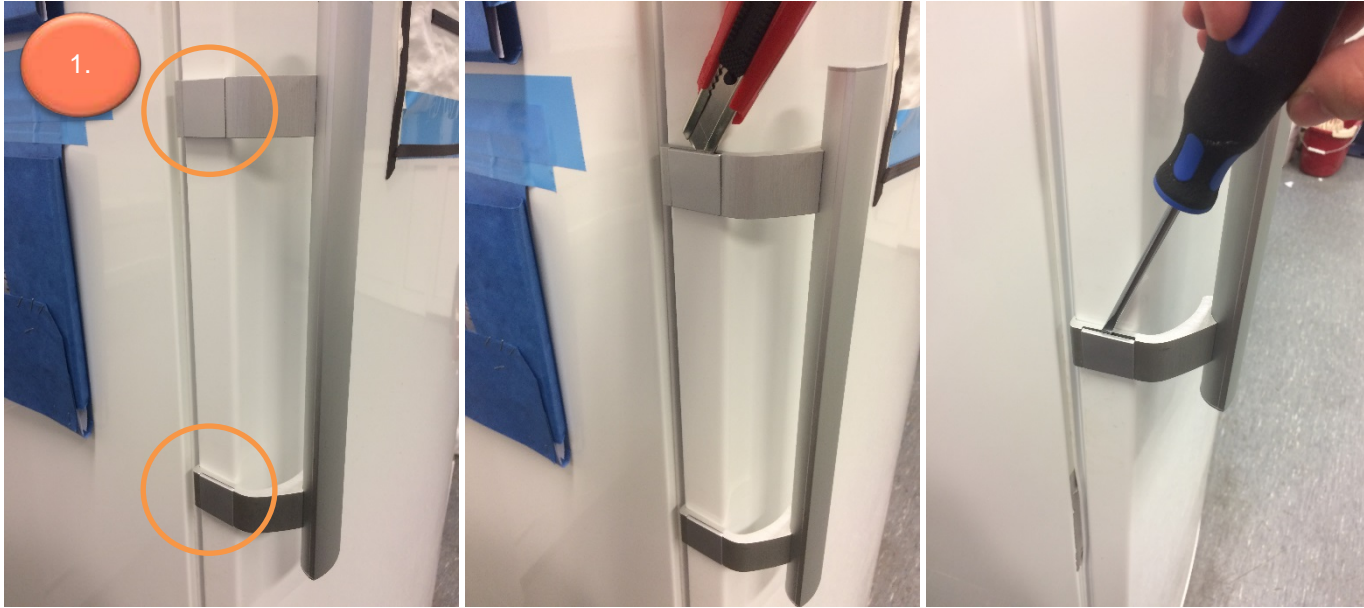

The handles need to be exchanged on freestanding freezer and refrigerators when installed side-by-side.

SOLUTION:

The cause of the problem is the thickness of the handles. To avoid customer claims, it is possible to exchange the handles for a thinner model.

This solution does not modify the appearance of the appliances.

1. Take off the plastic covers from the old handle.

2. Take out the screws and then the handle.

3. Install the new handle and fasten it with the screws.

SPARE PARTS:

Each spare part includes only one handle. To do this service, order two of the same spare part. The only difference between the spare parts is the brushing of the handles, vertical or horizontal, vertical brushing is the most commonly used.

Order two of this spare part:

Spare part number	Description
2650011287	1 x handle, assembly, aluminium, AL, 357mm, 260mm, vertical brushing.

Or two of these:

Spare part number	Description
2650011295	1 x handle, assembly, aluminium, AL, 357mm, 260mm, horizontal brushing

QES CODE:

During the intervention, please use codes:

Component	207, 227
Defect	55
